2007 report by the Intergovernmental Panel on Climate Change

2007 report by the Intergovernmental Panel on Climate Change

2007 Report to the President of the United States on the State of the Climate in 2007. The report provides a comprehensive overview of the current state of the climate system, including the latest findings from the Intergovernmental Panel on Climate Change (IPCC) and the National Oceanic and Atmospheric Administration (NOAA). The report also discusses the implications of climate change for the United States and the world, and provides recommendations for action to address the challenges posed by climate change. In FY 2007, combined reported classification activity totaled 23,102,257 decisions. The average combined classification activity since FY 1996 is 12 million actions per year.
