### **Nutrition in Addiction Recovery**

Drug addiction is a chronic disease characterized by drug seeking and use that is compulsive, or difficult to control, despite harmful consequences. Brain changes that occur over time with drug use challenge an addicted personâ€™s self-control and interfere with their ability to resist intense urges to take drugs.

Addiction treatment, the very thing that may be causing your fears, can actually help put those feelings to rest. A rehab program forces you to confront the addiction and the fears that surround it. You get the built-in support system from your treatment team and the other people going through treatment with you.
