

mud pump handbook pdf

Mud logging is the creation of a detailed record of a borehole by examining the cuttings of rock brought to the surface by the circulating drilling medium (most commonly drilling mud). Mud logging is usually performed by a third-party mud logging company. This provides well owners and producers with information about the lithology and fluid content of the borehole while drilling.

Mud logging - Wikipedia

A mud motor (or drilling motor) is a progressive cavity positive displacement pump (PCPD) placed in the drill string to provide additional power to the bit while drilling. The PCPD pump uses drilling fluid (commonly referred to as drilling mud, or just mud) to create eccentric motion in the power section of the motor which is transferred as concentric power to the drill bit (well).

Mud motor - Wikipedia

Preface Since its introduction in 1975, the Navi-Drill™ motor has established itself as the industry standard for performance and reliability. Navi-Drill motors have accumulated millions of drilling and circulating hours in thousands of directional
