What is e-commerce? [Electronic commerce or e-commerce refers to a wide range of online business activities for products and services. [] It also pertains to "any form of business transaction in which the parties interact electronically rather than by physical exchanges or direct physical contact." [] E-commerce is usually associated with buying and selling over the Internet, or conducting ...

In object-oriented programming, inheritance enables new objects to take on the properties of existing objects. A class that is used as the basis for inheritance is called a superclass or base class. A class that inherits from a superclass is called a subclass or derived class. The terms parent class and child class are also acceptable terms to use respectively.

### **Object-oriented programming concepts: Inheritance | Adobe**

Inheritance, encapsulation, abstraction and polymorphism are four of the fundamental concepts of object-oriented programming. You should have already learned about inheritance and encapsulation in previous articles.

New trade theory (NTT) is a collection of economic models in international trade which focuses on the role of increasing returns to scale and network effects, which were developed in the late 1970s and early 1980s.. New trade theorists relaxed the assumption of constant returns to scale, and some argue that using protectionist measures to build up a huge industrial base in certain industries ...
