Level design or environment design is a discipline of game development involving creation of video game levels—locales, stages, or missions. This is commonly done using a level editor, a game development software designed for building levels; however, some games feature built-in level editing tools. Level design is both an artistic and technical process.

3. Dimension 1 SCIENTIFIC AND ENGINEERING PRACTICES. From its inception, one of the principal goals of science education has been to cultivate students' scientific habits of mind, develop their capability to engage in scientific inquiry, and teach them how to reason in a scientific context [1, 2]. There has always been a tension, however, between the emphasis that should be placed on ...

There are a few questions I've been asked time and again over the years, and one of those came up again just recently: How do firearms fit into Eberron? There's a number of different gunpowder related classes and rules out in the world; Unearthed Arcana even included a version of the artificer with a Gunsmith archetype. So, how do firearms fit into the setting?
