deconstruction is the fact that it is not a method that aims at finding the meaning of the text in the sense in which phenomenological analysis engages itself with things. It stresses on the infinite possibilities of reading the text and opposes any fixation of meaning. Deconstruction is one of the prominent postmodern approaches, which

Students of literature and literary theory are doubtless most interested in its power as a method of reading and interpretation, but if our goal is to describe and evaluate the practice of deconstruction in literary studies, this is a good reason for beginning elsewhere, with deconstruction as a philosophical strategy.<sup>1</sup> Perhaps we should say ...

### **On Deconstruction: Theory and Criticism after Structuralism**

Deconstruction is the best-known (and most significant) form of literary criticism known as poststructuralism, and in fact many people use the terms interchangeably. To understand the revolution that poststructuralism has created in literary criticism, it is necessary to look at some of its predecessors, both structuralism-the
